

Geometry Webinar AmSur/AmSul

Warped Product Finsler Metrics

Patricia Marçal

Indiana University – Purdue University Indianapolis

07/05/2021 - sexta-feira

14:00 - Online

Resumo: We will discuss different notions of warped product for Finsler spaces and some special curvature properties for them. The talk will encompass the work of many mathematicians for the past couple of decades, including my joint work with Dr. Zhongmin Shen on the explicit construction of some Ricci-flat Finsler metrics with a specific type of warping.
